Why Study Math?

Activity 1:

Quadrilaterals are an integral part of our society. Architects use an assortment of quadrilaterals when creating the blueprints for buildings and homes. Without these blueprints, where would we be?

You will create our own “blueprint” that describes you and your future goals.

Directions: Pick any quadrilateral to decorate. You must include the following topics:

- Future Goals
- Interests/Hobbies
- Strengths/weaknesses
- What and/or who is important to you
- What you would like to be remembered for
